

# Summer Camp 2020

This summer our Montessori Community will study nutrition, transportation, and dinosaurs. Nutrition is a celebration of Practical Life. The children will cook, study the Food Pyramid, set the table, and practice table manners. Each child will make their own cookbook to take home. Learning about transportation is fascinating to

children. Most children own a bike—or a parent does—and all our families use a car as their main mode of transportation. Trains, planes and vehicles in general, are very interesting to children. We will end our

summer camp journey exploring the prehistoric life of dinosaurs. Children will investigate the amazing shapes, sizes, and habits of these creatures and unearth many fascinating facts. Don't miss the first week of Summer Camp when the students will each make their own aprons! Fridays are Splash Days! We will splash outside in our swim suits and play water games.

- Week 1      June 1-5**
- Week 2      June 8-12**
- Week 3      June 15-19**
- Week 4      June 22-26**
- Week 5      June 29-Jul 2 (Child Care Only) \*closed July 3rd**
- Week 6      July 6-10**
- Week 7      July 13-17**
- Week 8      July 20-24**
- Week 9      July 27-Jul 31**
- Week 10     Aug 3-7**

### Weekly Summer Camp Program Fees
